Dear Parents and Carers

### Coronavirus Update

Many of you have been in discussion with us recently about your concerns regarding the Coronavirus. Please be assured that we receive daily updates from the Local Authority and we are following their advice.

This has included the reinforcement of hygienic hand washing practice and the cleaning of surfaces, door handles and other key areas around school.

Whilst we await further guidance, please ensure that:

- If you, your child/young person or any member of your family have any of the symptoms of Coronavirus please seek medical advice.
- If you are aware that you, your child/young person or any member of your family have come into contact with anybody who has been diagnosed with Coronavirus, please notify me at school.
- If you, your child / young person or any member of your family has taken the decision to self-isolate, please notify me of this.
- If you are concerned about sending your child to school please do not hesitate to contact me to discuss your concerns.
- If you wish to keep your child / young person off school, I will support your decision.

If the government guidance changes, and if schools need to close, or if we need to close due to staffing shortages, we will notify you via the usual means and provide regular updates. Please check our website or Facebook page regularly and ensure that we have your up to date contact details so that we are able to contact you easily if required.

Your Sincerely

Ann-Marie Ellis  
Headteacher
